

'Watch Out Where You're Pointing That Thing'

The aircraft is going to go where the pilot has it pointed. John Boatright will discuss tips and techniques to help "keep it pointed in the right direction" on takeoff and landing. He will also discuss operations at non towered airports. A hamburger cook out sponsored by the SE NM Aviation Assoc. will follow the presentation.

Directions: Tailwind Aviation is located between the control tower and the CAF Hangar at the Hobbs Airport
